

How to find accommodation in Pirmasens

Dear students,

We as International Office are happy to welcome you at Hochschule Kaiserslautern and hope you will have a successful and pleasant time with us. As we know, finding a room/ apartment is a very important aspect of your preparations. But experience shows us, that finding a suitable and affordable accommodation in Zweibrücken might be challenging. Therefore, we created the following brochure in order to support you. Nevertheless, the initiative in finding accommodation needs to come from you. You need to start looking as soon as possible, ideally right after being admitted at Hochschule Kaiserslautern and not just after receiving your visa. During the 2 months before the official semester start, many people will be looking for an apartment.

In Germany, on-campus accommodation offered by the university itself is not a very common thing. Instead, student housing is offered by the Studierendenwerk Kaiserslautern, a union that is in charge of public student housing. However, places are limited (approx. 10% of the students are living there) and most of the students either live with their family or in a shared apartment. This means that everyone has his or her own bedroom and depending on the apartment you are staying at, all other facilities such as bathroom, kitchen or living room may be shared with the other residents. As a consequence of that concept, students are living all over town.

What to consider

- Location Campus Pirmasens, Carl-Schurz Str. 10-16
→ which neighbourhoods are easy to reach by foot/ bus? (<https://www.stadtbus-pirmasens.de/>)
- Rent
→ how much can you spend on the rent? Consider the difference between total rent („Warmmiete“) and basic rent („Kaltmiete“). Normally, the total rent for a room varies between approx. 260€ - 340€.
- Deposit
→ has to be deposited upfront (approx. two or three months' rent); will be given back to you at the end of your stay if the apartment/ furniture is not damaged.
- Try to find out whether an apartment is furnished or not.

Stand: Mai 2023

Finding accommodation

- Hochschule Kaiserslautern has cooperation with Studierendenwerk Kaiserslautern, a union that is in charge of public student housing.
- Places are extremely limited so register as soon as possible.
- An application does not automatically mean you will get a room. Therefore, you seriously need to look for an alternative.
- As soon as you are accepted at Hochschule Kaiserslautern, we will send you an email with the housing details and a link. If you are planning/ hoping to get a room at the dormitories, apply immediately.
- As soon as you have submitted your application, you will receive a confirmation email from the Studierendenwerk that has to be confirmed by you! Without your confirmation, the application is not processed!
- The application is not a rental contract.
- The Studierendenwerk will inform you about available rooms. Once that happens, you need to accept the offer as soon as possible. Otherwise, the room might be given to someone else.
- Confirmation regarding a room will be issued at the earliest 4 to 6 weeks before the semester starts, since the former tenants will not terminate their contracts earlier.

Furthermore, there is R&K Immobilien and Vision GmbH, a company that owns buildings with private student dormitories. They rent rooms in shared apartments near the campus (Marie-Curie-Straße 17). Please address your inquiries to:
