

Master Refinement of Polymer and Composite Products

Winter Semester	ECTS
Advanced Mechanics	5
Colorimetry, Varnishing and Product Cleaning Technology	5
Refinement of Additively Manufactured Products	5
Corporate Social Responsibility	5
Advanced Material Science	5
Fracture Mechanics and Tribology	5

Summer Semester	ECTS
Material and Surface Characterisation of Polymer and Composites	5
Advanced Mathematics for Engineers	5
Refinement of Polymer Compounds and Textiles	5
Research Management Skills an Processes	5
Project Work	5
Coating Technology and Functional Surfaces	5

These modules belong to the MA programme Refinement of Polymer and Composite Products. For more information on the modules, please consult the respective module description or contact the [departmental coordinator](#).

This Incoming Programme provides a combination of modules. All modules are optional and can be replaced by modules from the same faculty or by cross-faculty modules.

(Version Nov24)
